

Fabien Crapetto

SENIOR FRONTEND DEVELOPER

Chiang Mai, Thailand | fcrapetto@gmail.com | Portfolio | linkedin.com/in/fcrapetto | gitlab.com/fabiencrapetto

PROFESSIONAL SUMMARY

Senior Frontend Developer with 12+ years of experience building performant, pixel-perfect web applications across the Vue/Nuxt, React, and Angular ecosystems, backed by solid fullstack foundations. I work comfortably at the intersection of development and design — translating Figma mockups into accessible, responsive interfaces while collaborating closely with designers and backend teams. Known for a fast ramp-up on new frameworks and tooling, a strong focus on UX, performance, and SEO, and a track record of reducing operational costs through smart automation. Fluent in French and English, working internationally.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6), TypeScript, Vue.js, Nuxt.js, React, Angular, jQuery, Tailwind CSS, Bootstrap, SASS / Less, Three.js, Node.js, Vite
Backend	PHP 7/8+, Symfony, REST APIs, Strapi, Decap CMS, MySQL, MongoDB, Drupal 8/9+, WordPress, Joomla
Design & UX	Figma, Adobe Creative Suite, Sketch, GIMP, pixel-perfect integration, design systems & style guides
DevOps & Tooling	CI/CD (GitLab, Netlify, Jenkins), Docker, AWS, Bash, Makefile, Git, package managers
AI & Automation	Cursor, Claude, OpenAI, n8n workflow automation
Project Mgmt	Jira, Asana, Trello, Freshbooks, Agile collaboration

PROFESSIONAL EXPERIENCE

SIDEV AGENCY · Chiang Mai, Thailand Jun 2026 – Present

Founder & Lead Developer

- Founded a frontend-focused web development agency delivering performant, design-driven solutions (Vue / Nuxt, React, Shopify) for international clients.
- Lead end-to-end delivery — from Figma design through production deployment — ensuring pixel-perfect, accessible, and SEO-optimized interfaces.
- Designed and built an internal landing-page generator (TypeScript, Vite, Vue.js, Decap CMS) that speeds up landing-page production and lets the team ship campaign pages faster.
- Own technical architecture decisions, client relationships, and delivery standards across concurrent projects.
- Built an AI-assisted delivery workflow (Cursor, Claude, n8n) on top of automated CI/CD pipelines with GitLab and Netlify, accelerating shipping while reducing operational overhead.

NAK WEB · nakweb.agency 2023 – 2026

Senior Frontend Developer

- Drove continuous improvement of a large-scale, multilingual Vue.js / Nuxt 3 platform (Otypo.com), shipping user-facing features with pixel-perfect Figma integration and a strong UX/UI focus.
- Owned full development, maintenance, and evolution of custom Shopify storefronts (PopStamp.fr and its multilingual expansion PopStamp.de) using Liquid, vanilla JavaScript, and CSS3.
- Built custom automations, advanced product options, and workflow optimizations that significantly reduced operational costs.
- Contributed to the platform's Vue / Nuxt 2→3 upgrade, created reusable UI component style guides, and improved layout quality, code readability, page-speed scores, and SEO.

Front / Back-end Developer

- Maintained and improved 8 websites on a custom Drupal 9 architecture; led the Drupal core migration from version 7 to 9.
- Built custom Drupal modules, integrated Adobe XD templates, and drove company-wide Tailwind CSS adoption.
- Set up and upgraded the fullstack environment (Drupal / Docker / Bash / Makefile) and strengthened backend skills (PHP 8, Elasticsearch, MongoDB).
- Managed analytics monitoring, workflows, and processes; built an interactive mini-game with Three.js.
- Ran internal knowledge-sharing sessions on CSS fundamentals — cascade rules, stacking context, positioning, and specificity — and on CSS frameworks such as Tailwind CSS and Bootstrap.
- Mentored and supervised an intern on a Vue.js / Strapi project, providing technical guidance and code review.

LEAN STREET · leanstreet.io

Senior Frontend Developer

- Served as lead frontend developer for primary client 17hats — ported designs to HTML for the public site and resolved issues on their React / KnockoutJS web app.
- Completely rebuilt the public-site frontend and delivered UX/UI redesigns and functionality debugging.
- Cleaned and prepared the GivelnKind frontend ahead of launch.

IGLU · iglu.net

Frontend Developer

- Designed and developed the full frontend of the IGLU website, including a complete rebuild and redesign of the public site.
- Delivered UX/UI redesigns and ongoing maintenance for multiple clients, including 17hats.
- Refactored the SCSS architecture of a crypto-wallet application and adopted Angular 3-4.

GENERALMEDIA SA · Switzerland

Frontend Developer

- Built small interactive sites and landing pages and integrated layouts into a Symfony structure (e.g., Loisirs.ch).
- Adopted the PHP / Symfony framework, MVP methodology, and Git-based multi-user repositories.

EDUCATION & CERTIFICATIONS

Bachelor (Pro), Information Technology

EPSIC · 2001 - 2005

B2 First Certificate in English (FCE)

Cambridge Assessment · 2010

VOLUNTEER

Developer · Sahana Sri Lanka

Co-designed and built the website for this NGO · 2014
